

**RAZI  
SCHOOL**

**January 18, 2022**

Dear Parents and Guardians,

To keep our school safe and healthy we have updated our Health protocols in accordance with CDC guidelines and our school policies.

Student(s) **must stay home**:

- If the child has tested positive with an at home test kit, rapid test, or PCR test. She/He is only allowed back to school after ten days (10 days). This is also the new guideline for those that have tested positive but are not showing any symptoms
  - If the child has been in contact with someone who has tested positive. This includes but is not limited to parents, siblings, and relatives. If the student shows no symptoms after five days, then they are allowed to come back to school with a negative covid test result.
- 

In case of an in-class infection:

- If the class/grade your child is a part of has multiple cases, then the student is allowed to stay home. (Teachers for the major subjects will be holding online classes for those that choose to keep the student at home in this scenario)
- 

For those who

- If the covid test results of students and their family members are negative and the student has not been in contact with anyone that has tested positive, then their in-person attendance is **mandatory**.  
Keep in mind only our major courses are offered online and this is only for a short, temporary period.  
Any student missing school without proper documentation or approval from the school is going to be marked absent and their attendance will be reflected in their report card.
- Lastly, if the student is not in school for more than 3 school days for any reason unrelated to covid, they must return to the school with a negative test result.

Thank you all for working with Razi to help us keep our students and staff safe. If you have any questions or concerns please feel free to contact us.
